

**TO:** Ohio Video Lottery Sales Agents  
**FROM:** Ohio Lottery, Office of VLT Management  
**RE:** JCM iVIZION Bill Validator – Required Firmware Versions  
**DATE:** March 03, 2023

---

The purpose of this memo is to inform all Ohio Lottery Commission (OLC) licensed Video Lottery Sales Agents (VLSA) of a change in the required minimum firmware version for JCM iVIZION bill validators.

A memo dated January 11, 2023, required the following minimum firmware versions to be installed no later than April 1, 2023:

- ID0G8 - 2.91-43
- ID003 - 2.91-45
- ID024 - 2.91-15
- ID028 - 2.91-33

JCM reported to the OLC that the new firmware versions (2.91-XX) are causing a drop in bill acceptance rates at some locations. JCM is investigating the issue. Until further notice, the OLC is no longer requiring the Ohio VLSAs to update their JCM iVIZION bill validators to version 2.91-XX.

Effective immediately and until further notice, the minimum required firmware versions for JCM iVIZION bill validators are as follows:

- ID0G8 - 2.84-39
- ID003 - 2.84-44
- ID024 - 2.84-15
- ID028 - 2.84-30
